

Vanguard Initiative - 3DP Pilot

Webinar 'Funding Opportunities' – Agenda

March 8th, 2021 (1pm-3pm CET)

Remote Participation – Register [here](#) (registration is compulsory)

1. Context and Generic Objectives

Over the last months, the 3DP Pilot made substantial progress in terms of enabling the implementation of industry-led cross regional demonstration projects in strategic fields: funding solutions were leveraged and secured for various projects. We **are now aiming at duplicating and upscaling progress made in the coming months.**

In order to do so, the 3DP Pilot is **organising a Webinar, that is pursuing the following objectives:**

- 1) To present to members relevant funding opportunities, i.e. opportunities that could support 3DP Pilot-generated/associated projects. More specifically, funding opportunities related to cross-regional demonstration projects in the field of Additive Manufacturing will be presented. The scope of the Webinar will focus mainly on EU-level opportunities (incl. cascade funding and 'emerging' opportunities from Horizon Europe). Relevant regional opportunities will also be presented, to the extent available.
- 2) To initiate (when possible) dedicated/specific follow-up actions related to specific opportunities identified. In this context, members were asked to reserve time on the 19th of March, from 10.00 to 12.00. The objective is to block a 'follow-up' 2-hours timeslot in the agenda of the members in order to facilitate the organisation of follow-up actions at the level of some specific opportunities (presented during the Webinar on the 08.03). An example of such actions could be distinct 'closed-group' meetings focusing on a particular call for which specific information/additional interest would have been gathered by interested members in the meantime. More information will follow during the webinar.

Among others, in view of offering to its members a comprehensive picture of Additive Manufacturing-related opportunities (and beyond, i.e. Advanced Manufacturing), the **3DP Pilot invited representatives of the following selected projects** to give a presentation (tailored to the Pilot specificities) focusing on their cascade funding opportunities: [PULSATE](#); [Trinity](#); [SmartEEs](#); [WeldGalaxy](#); [Metabuidling](#) (see next page for more information).

2. Detailed Agenda

- 13h00-13h15** **The 3DP Pilot Funding Needs and Opportunities in 2021 – General presentation** (*Jean-François Romainville, IDEA Consult, Network Manager of the 3DP Pilot*)
- 13h15-13h25** **Funding opportunities at (infra) regional level – A piloting activity and next steps** (*Wim de Kinderen, Brainport Development and Jean-François Romainville, IDEA Consult*)
- 13h25 – 13h50** **Upcoming Funding opportunities in Horizon Europe – A selection for 3DP Printing activities** (*Jean-François Romainville, IDEA Consult*)
- 13h50-14h50** **Current Cascade Funding Opportunities – Detailed presentations (made by respective project leaders) of a selection of projects:**
- I4MS [PULSATE](#) Open Call (*Izabela Zrazinska, FundingBox*)
 - [Trinity](#) Open Call (*Jyrki Latokartano, University of Tampere*)
 - [SmartEEs](#) Open Call (*Jérôme Gavillet, CEA*)
 - [WeldGalaxy](#) Open Call, incl. WAAM innovations (*Izabela Zrazinska, FundingBox*)
 - [Metabuidling](#) Open Call (*Dr. Paula Queipo Rodriguez, Idonial*)
 - Others: [Change2Twin](#), [Eliit](#), etc.
- 14h50-15h00** **Next Steps**
