

Join EIT Health as a Network Partner

Be part of the EIT Health Community – where ideas meet opportunities

EIT Health is an international network of health innovators supported by the European Institute of Innovation and Technology (EIT), a body of the European Union.

We connect stakeholders within Europe and, through EIT Global Outreach, which manages innovation hubs in Silicon Valley, the UK and Israel, to other key thriving ecosystems beyond the EU.

We foster collaboration to promote innovation that enables European citizens to live longer, healthier lives.

The InnoStars cluster, as part of EIT Health, is specifically focused on Central, Eastern, and Southern Europe, connecting them with well-known hubs in Europe.

JOIN EIT HEALTH AS A NETWORK PARTNER

Network Partner / Annual membership fee of €5000

With the Network Partnership, you will access the following services:

# Connecting you to the right people across borders

- Personalised Strategic Support from Ecosystem Experts
- Morning Health Talk Series:
  Building Thematic Communities
- Participation in InnoStars Partner Meetings

- EIT Health Monthly Community Newsletter
- Early Health Technology Assessment (HTA) Training: Unlocking Innovation Potential - Level 1
- EIT Health Webinar Series:
  Empowering Intrapreneurs/ Entrepreneurs

How can we accelerate your growth in the European healthcare sector?

We hand-pick and introduce the right people to each other across borders. We offer learning opportunities – technical, strategic, and interpersonal – to build shared narratives and new consortia. We attract external funding to enable these consortia to work together and create value. We disseminate your success stories among our valued members and the EU's key decision-makers to increase visibility and prestige.

- Matchmaking support for external grant application
- Fund Mapping
- Project-Funding Fit Assessment

# Providing you with visibility within our network

- Partner Showcase: Annual Company Spotlight
- EIT Health Partner Certificate
