SPACE

November 26-27, 2026

**connecting ideas
innovating for health**

#LSOS.info

**Let's meet in Krakow !
the City of Life Science**

FROM IDEAS TO IMPACT

Life Science Open Space brings together researchers, startups, industry leaders, investors and policymakers from across Europe and beyond.

Designed as a forum for opportunities, it creates space to share ideas, validate value and build partnerships that move innovation toward real-world impact.

DAY 1 From Health Challenges to Collaboration Opportunities

DAY 2 From Collaboration to Translation, Investment and Strategic Reflection

A FORUM FOR OPPORTUNITIES

Over two days, LSOS guides participants through a clear journey: from identifying challenges and opportunities, through building partnerships, to translating innovative ideas into collaborative actions..

DAY 1 WHAT TO EXPECT?

From Challenges to Collaboration

Project pitches, collaboration offers and cross-sector partner search.

Opportunities include validation pilots, joint projects, EU consortia building and real implementation pathways.

innovations happen because of collaboration

EVENING INSPIRATIONS

An informal networking session where conversations turn into relationships, ideas mature and new collaborations often begin in a more natural setting.

SESSION 1

PREDICT & PREVENT

Earlier insight. Smarter prevention. Focus on early diagnostics, risk identification, personalised prevention and population health.

Find partners for:

validation, pilots, data access and implementation

SESSION 2

DISCOVER & TREAT

From science to solutions.

Focus on biotech, advanced therapies, medical technologies and scalable innovation pipelines.

Find partners for:

co-development, clinical validation regulatory pathways and industrial collaboration

SESSION 3

CONNECT & CARE

Innovation in real healthcare.

Focus on digital health, medical devices, care pathways and implementation in healthcare systems.

Find partners for:

deployment, integration and scaling of solutions

DAY 2 WHAT TO EXPECT?

From Collaboration to Impact

Business development, pitching and investment dialogue across sectors.

Opportunities include validation, funding, scaling and translating innovation into real-world impact.

**LSOS is
where ideas
gain momentum**

**join us
in Kraków!**

**ALL THE DETAILS
YOU WILL FIND AT:**

SESSION 1 BUSINESS DEVELOPMENT

Business2Science Talks & Panels

Industry, investors and experts share what makes innovation investable and market-ready.

Science-to-Business Pitching

Research teams present projects seeking validation, licensing, spin-out creation and funding.

SESSION 2 STARTUP SCENE

Where life science ventures meet capital.

Startups present to investors and industry, gaining visibility, feedback and access to funding opportunities.

Focus on market validation, business readiness and building strategic partnerships.

SESSION 3 QUESTIONS THAT MATTER

Not answers. Better questions.

A closing session focused on:

- the future of healthcare
- ethical and societal impact
- the direction of innovation

Because the quality of innovation depends on the questions we choose to ask.
